**DECISION
ON STUDENT SURVEY THROUGH THE STUDENT INFORMATION SYSTEM**

I

To the purpose of enhancing the quality assurance system at IUS and improving students' participation, while at the same time taking into consideration the COVID-19 pandemic precaution measures, in the future period, starting from the Fall Semester of the 2021/2022 academic year, student surveys will be implemented through the Student Information System (SIS)- STUDENT SURVEY software module.

II

In order to ensure that the survey results are representative of the target population, and to achieve the highest practical rates of response so that the results can be used with confidence to inform decisions, IUS officially will inform students on the purpose and a new instrument for student survey. Accordingly, in order to access their grades in the SIS, students will be required to complete the survey through the information system. Students will also be informed that the principles of anonymity, confidentiality and privacy of their personal data will be observed.

III

The survey questionnaire's content remains the same as in the previous semesters, consisting of two parts as follows: multiple questions about the teaching and course quality and free comments about the course or IUS general improvement. The survey content is given in the Annex 1 to this document.

IV

The results of the student survey will be analysed in detail in accordance with the legal provisions, and will be used for the purpose of improving the quality of teaching and learning.
